

**The following equine joint supplements
have no objective clinical evidence of
improving joint mobility –**

**NAF Five Star Superflex,
EquiFlex, PREMIERflex HA,
ExtraFlex HA, STRIDE HA,
My Joints, Arthri Aid and
NEW MARKET JOINT
SUPPLEMENT.**

**Cortaflex was successfully subjected to
a double blind study of joint mobility
at Michigan State University, Medicine
Research Department. The rigorous
study was led by world renowned clinician
Dr Hilary Clayton BVMS, PhD, MRCVS.
Force plates and six-camera Expert Vision
Real Time were used to ensure that the
findings were of the highest accuracy. The
outstanding results of the study can be
seen on the independent web site –**
